santafemountains resiliency project

PLEASE DO NOT CLEAR CUT IN THE SANTA FE NATIONAL FOREST.

IF YOU CUT DOWN 90% OF THE TREES, WHAT DO YOU MANAGE?

DONT YOU KNOW THAT WE NEED TO BE PLANTING MORE TREES, NOT CUTTING THEM DOWN. WE

DESPERATELY NEED THE CO2 EXCHANGE.

CONSIDER THE FLASH FLOODING IMPACT.

PLEASE BE CONSCIENTIOUS IN PERFORMING YOUR JOBS. YOU ARE MEANT TO BE THE FRONT LINE

OF ENVIRONMENTAL PRESERVATION, NOT CLEAR CUTTING LUMBER.

THE ENVIRONMENTAL DAMAGE THIS COULD PERPETRATE WOULD BE FAR WORSE THAN FIRE.

THANK YOU, MELISSA & ESME HAID

PLEASE PLEASE DO NOT GO FORWARD WITH THIS SO CALLED LANDSCAPE RESILIENCY PLAN!!!!

wiping out those trees is in a word, unconscious.

clear cutting has never proven to be a solution. not to mention the potential for flooding disasters below that entire are. THIS PROPOSED PROJECT MUST BE DISMISSED!!!
