Dear Mr Hannah Bergemann,

As a citizen of Santa Fe and protector of our great National Forests, especially our own here in Santa Fe, I am again asking the Forest Service to stop any plans to cut and burn 50,000 acres of our forest and it's fragile ecosystem.

Please perform an EIS before any action and please invite and be open to public and scientific debate.

I look forward to your action to protect and your reply,
Lura Brookins
