Title:

Comments:

Canada de los Alamos Forest

To: Whom It May Concern:

1. A Comprehensive Environmental Impact Statement is required for a project of this scope and the size may have significant impact on the human environment and on the resources such as recreation, roadless areas and wildlife.

2. The analysis must be site-specific. This condition-based approach is too vague to make meaningful scoping comments.

Sincerely,
Susan Breazeale
36 Nieman Road
Arroyo Hondo, NM 87513
