Santa Fe Mountains Landscape Resiliency Project

As a resident of Santa Fe, I am deeply concerned about the enormous size of this project, the short comment period allowed to the public, and the repeated response by the Forest Service employees that there will be no Environmental Impact Statement regarding its effects on our beloved forest. It took longer, with more public input, to approve the small Railyard Project, in comparison to the 50,000 acres in this project.

I would like to know why there is such a rush to push this permanent cutting and burning of our forests? Please extend the comment period to 90 days for a more democratic process.

Who says the land can be so resilient from such a brash, irreversable act?
