Comments:

I have been a resident of Santa Fe County for nearly twenty years and use the Santa Fe National Forest frequently for recreation, birdwatching, wildlife watching, and other nature study.

As a birdwatcher, I support the Santa Fe Conservation Alternative as presented by the Sierra Club, the WildEarth Guardians, and the Defenders of Wildlife, and I request that the SFNF prepare a NEPA-compliant Environmental Impact Statement for this project, since the project area includes habitat and potential habitat for at least a dozen different threatened and at-risk species, including the Mexican Spotted Owl, a Federally Listed species.
