Action needed today! PLEASE Be For The Forest!

Dear Forest Service,

You know there is great concern:

The three most important points are-

- 1) PLEASE! this project should be analyzed by an Environmental Impact Statement.
- 2) PLEASE! Analysis should be site-specific! PLEASE do not use the "condition-based approach".
- 3) PLEASE! This Scoping Document is severely lacking in a range of important information that is needed to write meaningful scoping comments.
- 4) Please! I ask that the scoping comment period be extended so the Public has more time to engage and to become informed. Especially due to the Glitch on your site regarding an Incorrect E-mail Address! A 30-day scoping comment period is minimal.

My concerns about the project are great. PLEASE, Forest Service, analyze fully for this environmental assessment by agreeing to an Environmental Impact Statement.

I am For the forest,

Sincerely,

Mary Layne, Realtor  
Coldwell Banker Trails West Realty  
505.660-3540  
mary@mary-layne.com

The forest we love, let's keep it that way!
