Comments:

Santa Fe Mountains Landscape Resiliency Project

To whom it may concern:

I'm writing to ask two things related to the Santa Fe Mountains Landscape Resiliency Project:

1) A comprehensive Environmental Impact Statement is required for a project of this scope and size that may have significant impacts on the human environment and on resources such as recreation, Roadless Areas, and Wildlife (or any others you want to mention).

2) The Analysis must be site-specific. The condition-based approach is too general and vague to make meaningful scoping comments.

Thank you for taking these key specific components into account as you evaluate Forest management.

Thank you,  
Sarah M Cutler, Santa Fe NM
