Santa Fe Mountains Landscape Resiliency Project

Dear Santa Fe Mountains Landscape Resiliency Project People,

A comprehensive Environmental Impact Statement is required for a project of this scope and size that may have significant impacts on the human environment and on resources such as recreation, Roadless Areas, and Wildlife.

The burn itself will also compromise all the many breathing-compromised people in a much bigger area around the burn and in Santa Fe city itself!

The Analysis must be site-specific. The condition-based approach is too general and vague to make meaningful scoping comments.

Please please see that the consequences of this burn will not be good for our area by doing this law-required, comprehensive Environmental Impact Statement first!

Thank you!  
Karen Shepherd  
120A E Lupita Rd  
Santa Fe, NM 87505
