Embudo, NM 87531

7/17/19

To whom it may concern,

I want to add to my comment that I emailed yesterday.

The consequences of building roads, thinning, controlled burns, grazing and logging all may have such dire results to our environment that it is crucial to have the NFS do a comprehensive EIS before continuing this proposed project for the Santa Fe watershed.

Sincerely,

A handwritten signature in cursive script, appearing to read "Paula Seaton", written in black ink.
