Santa Fe Mountains Landscap'r Resiliency Project

I am concerned that here was no ENVIRONMENTAL

IMPACT STUDY, that to me would be incredible information for all of us. I am concerned there is such a short comment period, please extend to 90 days, allowing the public to respond and more research as well.

I would like also for you to allow Climate Scientists with forestry experience ex> Dr. Dominick Della Salla ,PHD to weigh in as well

Please consult research Of Dr. Chad Hansen and Dr Jack Cohen Most effective Mitigation is around homes.

Thank you for your time,
Mary Ellen Amuso
