**Subject:** Current Thinning Project

Dear Mr. Melonas:

As someone who hunts and recreates in Santa Fe National Forest. Before any action is taken, we need a full EIS, and an extensive period for public comment. Thirty days is far too short.

There are many concerns that citizens such as myself have about the project. I particularly have concerns about how you are factoring climate change into the data. Given the importance of this area to Santa Fe, we need to involve the scientific community.

Thank you for your consideration.

Sincerely,

Marc
