Comments:

I have been hearing about many concerns about the Santa Fe Mountains Landscape Resiliency Project.

Please note my concerns:

1) A comprehensive Environmental Impact Statement is required for a project of this scope and size that may have significant impacts on the human environment and on resources such as recreation, Roadless Areas, and Wildlife (or any others you want to mention).

2) Analysis must be site-specific. The condition-based approach is too general and vague for it to be possible to even make meaningful scoping comments.

Thank you, Patricia Erdmann
